

Datasheet: AHP1435

**BATCH NUMBER 156851**

<b>Description:</b>	RABBIT ANTI IFN BETA
<b>Specificity:</b>	IFN BETA
<b>Other names:</b>	INTERFERON BETA
<b>Format:</b>	Purified
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	0.1 mg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin (1)	▪			
ELISA			▪	
Immunoprecipitation			▪	
Western Blotting	▪			5ug/ml

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

**(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.**

<b>Target Species</b>	Human
<b>Species Cross Reactivity</b>	<p>Reacts with: Mouse</p> <p><b>N.B.</b> Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
<b>Product Form</b>	Purified IgG - liquid

**Antiserum Preparation** Antisera to human IFN Beta were raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG was prepared by affinity chromatography.

---

**Buffer Solution** Phosphate buffered saline

---

**Preservative Stabilisers** 0.02% Sodium Azide

---

**Approx. Protein Concentrations** IgG concentration 1.0 mg/ml

---

**Immunogen** A 17 amino acid peptide located near the centre of human IFN Beta.

---

---

**Synonyms** IFB, IFNB

---

**RRID** AB\_1055752

---

**Specificity** **Rabbit anti Human interferon beta antibody** recognizes interferon beta (IFN-beta), a 22 kDa member of the type I alpha/beta interferon family. IFN beta, initially described as fibroblast interferon, is produced predominantly by fibroblasts and some epithelial cells. Type 1 interferons are produced primarily in response to viral infections as part of the host immune response and can also inhibit the development of tumors. IFN-beta is involved in the regulation of non-specific humoral immune responses and responses against viral infections.

---

**Western Blotting** AHP1435 detects a band of approximately 15kDa in A20 cell lysates.

---

**Storage** Store at +4°C or at -20°C if preferred.

This product should be stored undiluted.

Storage in frost free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

---

**Guarantee** 12 months from date of despatch

---

**Health And Safety Information** Material Safety Datasheet documentation #10040 available at:  
<https://www.bio-rad-antibodies.com/SDS/AHP1435>  
10040

---

**Regulatory** For research purposes only

---
