# Datasheet: AHP1437 BATCH NUMBER 157979

RABBIT ANTI SLPI
SLPI
HUSI-1
Purified
Polyclonal Antibody
Polyclonal IgG
0.1 mg

## **Product Details**

Applications	derived from testing withi communications from the	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-</u>

	<ul> <li>Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.</li> <li>(1)This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.</li> </ul>				
Target Species	Human				
Species Cross	Reacts with: Mouse				
Reactivity	N.B. Antibody reactivity and working conditions may vary between species. Cross				
	reactivity is derived from	testing within our laboratories, peer-reviewed publications or			
	personal communication	s from the originators. Please refer to references indicated for			
	further information.				
Product Form	Purified IgG - liquid				

Antiserum Preparation Antisera to human SLPI were raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG was prepared by affinity chromatography.

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.02% Sodium Azide
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	A 17 amino acid peptide located near the centre of human SLPI.
External Database Links	UniProt: <u>P03973</u> <u>Related reagents</u> Entrez Gene: <u>6590</u> SLPI <u>Related reagents</u>
Synonyms	WAP4, WFDC4
RRID	AB_2195061
Specificity	Rabbit anti Human SLPI antibody recognizes secretory leukocyte protease inhibitor (SLPI), a ~14 kDa non-glycosylated protein produced by secretory cells in the respiratory, genital and lachrymal glands, and by macrophages, B-cells and neutrophils. The functions of SLPI are diverse. The SLPI protein inhibits protease activity at sites of inflammation, protecting tissues against protease mediated damage and it possesses anti-microbial/anti-viral activity. In addition, SLPI has been reported to exhibit anti-inflammatory properties, regulating lipopolysaccharide induced activation of NF-kappa beta in peripheral blood monocytes.
Western Blotting	AHP1437 detects a band of approximately 14kDa in Daudi cell lysates.
Storage	Store at +4°C or at -20°C if preferred. This product should be stored undiluted. Storage in frost free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/AHP1437 10040
