

Datasheet: AHP1484

BATCH NUMBER 170116

Description:	RABBIT ANTI BRCC36
Specificity:	BRCC36
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin (1)	▪			
ELISA			▪	
Immunoprecipitation			▪	
Western Blotting	▪			0.5 - 1.0ug/ml
Functional Assays			▪	

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1)This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse, Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Antiserum Preparation Antiserum to human BRCC36 was raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution Phosphate buffered saline

Preservative Stabilisers 0.02% Sodium Azide (NaN₃)

Approx. Protein Concentrations IgG concentration 1.0mg/ml

Immunogen An 18 amino acid peptide from near the amino terminus of human BRCC36.

RRID AB_2290662

Specificity **Rabbit anti Human BRCC36 antibody** recognizes human BRCA1/BRCA2 complex subunit 36 (BRCC36), a 36.7 kDa nuclear protein.

BRCC36, together with BRCA1, BRCA2, Rad51 and BRCC45, forms a holoenzyme complex that possesses an ubiquitin E3 ligase activity.

BRCC36 functions in enhancing cellular survival following DNA damage and that it is essential for ionizing radiation induced BRCA1 phosphorylation and nuclear foci formation and BRCC36 is aberrantly expressed in the majority of breast tumors indicating a potential role in the pathogenesis of the disease. BRCC36 could be a potentially important target in the treatment of radiation-resistant breast tumors ([Chen et al. 2004](#)).

Western Blotting AHP1484 detects a band of approximately 36kDa in MCF7 cell lysates.

Storage Store at +4°C or at -20°C if preferred.
Storage in frost-free freezers is not recommended.
This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 12 months from date of despatch
