

Datasheet: AHP1538

**BATCH NUMBER 171011**

<b>Description:</b>	RABBIT ANTI 5-LIPOXYGENASE (pSer523)
<b>Specificity:</b>	5-LIPOXYGENASE (pSer523)
<b>Other names:</b>	5-LO
<b>Format:</b>	Purified
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	0.1 ml

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA			▪	
Immunoprecipitation			▪	
Western Blotting	▪			1/1000

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

### Target Species

Human

### Species Cross Reactivity

Reacts with: Rat

Based on sequence similarity, is expected to react with: Primate

**N.B.** Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

### Product Form

Purified IgG - liquid

**Antiserum Preparation** Antisera to phosphorylated 5-lipoxygenase were raised by repeated immunisations of

rabbits with highly purified antigen. Purified IgG prepared by affinity chromatography.

---

<b>Buffer Solution</b>	10mM HEPES pH7.5, 150mM NaCl
------------------------	------------------------------

---

<b>Preservative</b>	0.09% Sodium Azide
<b>Stabilisers</b>	0.01% Bovine Serum Albumin 50% Glycerol

---

<b>Immunogen</b>	Synthetic phosphopeptide corresponding to an amino acid sequence within human 5-lipoxygenase which includes the phosphorylated residue Ser523.

<b>Specificity</b>	<b>Rabbit anti 5-lipoxygenase (pSer523) antibody</b> recognizes 5-lipoxygenase (5-LO), also known as arachidonate 5-lipoxygenase, when phosphorylated at serine 523. 5-LO is an enzyme that catalyses the synthesis of leukotrienes (LTs) from arachidonic acid (a polyunsaturated fatty acid), by the insertion of an oxygen into the arachidonic backbone. 5-LO requires calcium, ATP and the 5-LO-activating protein as cofactors for full activity. Leukotrienes are synthesised and secreted by leukocytes in response to immunologic or inflammatory stimuli, such as in asthma and allergic reactions. The biological effects of LTs include leukocyte chemotaxis, pulmonary airway constriction, mucous hypersecretion, vasoconstriction and increased vascular permeability. In recent years 5-LO has also been implicated in the regulation of cell proliferation and apoptosis and has been found in a broad variety of cancer cells.
--------------------	--

---

<b>Western Blotting</b>	AHP1538 detects a doublet of approximately 80kDa in rat cortex lysate.
-------------------------	--

---

<b>Storage</b>	Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
----------------	---

---

<b>Guarantee</b>	12 months from date of despatch
