

Datasheet: AHP1589

BATCH NUMBER 148599

Description:	RABBIT ANTI HUMAN CX3CR1 (N-TERMINAL)
Specificity:	CX3CR1 (N-TERMINAL)
Other names:	FRACTALKINE RECEPTOR
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin (1)	■			2.0ug/ml
Western Blotting	■			0.5 - 1.0ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.

Target Species	Human
Species Cross Reactivity	<p>Reacts with: Rat, Mouse</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
Product Form	Purified IgG - liquid
Antiserum Preparation	Antiserum to human CX3CR1 (NT) was raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.02% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 1.0mg/ml
Immunogen	A peptide corresponding to amino acids 2-21 of human CX3CR1.
External Database Links	<p>UniProt:</p> <p>P49238 Related reagents</p> <p>Entrez Gene:</p> <p>1524 CX3CR1 Related reagents</p>
Synonyms	CMKBRL1, GPR13
RRID	AB_2087421
Specificity	<p>Rabbit anti Human CX3CR1 antibody recognizes the N-terminal region of Human CX3CR1, a 40.4 kDa seven trans-membrane protein.</p> <p>CX3CR1, also known as fractalkine receptor, is the receptor for CX3CL1 and acts as a co-receptor with CD4 for the HIV-1 envelope protein. It is expressed in a variety of human tissues and mediates leucocyte adhesion and migration.</p>
Histology Positive Control Tissue	Human heart
Western Blotting	AHP1589 detects a band of approximately 50kDa in human spleen cell lysates.

Storage	Store at +4°C or at -20°C if preferred.

Storage in frost-free freezers is not recommended.

This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/AHP1589 10040
Regulatory	For research purposes only
