

Datasheet: AHP1603

BATCH NUMBER 120515

Description:	RABBIT ANTI HUMAN DcR3 (N-TERMINAL)
Specificity:	DcR3 (N-TERMINAL)
Other names:	TNFRSF6B
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Frozen			▪	
Immunohistology - Paraffin (1)	▪			1ug/ml
ELISA			▪	
Western Blotting	▪			0.5 - 1.0ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.

Target Species	Human
Species Cross Reactivity	<p>Reacts with: Mouse, Rat</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
Product Form	Purified IgG - liquid

Antiserum Preparation Antiserum to human DcR3 (NT) was raised by repeated immunisation of rabbits with

highly purified antigen. Purified IgG was prepared from whole serum by ion exchange chromatography.

Buffer Solution	Phosphate buffered saline
------------------------	---------------------------

Preservative Stabilisers	0.02% Sodium Azide (NaN ₃)
---------------------------------	----------------------------------------

Approx. Protein Concentrations	IgG concentration 0.5 mg/ml
---------------------------------------	-----------------------------

Immunogen	A peptide corresponding to amino acids near the amino-terminus of human DcR3 precursor.
------------------	-----------------------------------------------------------------------------------------

External Database Links	UniProt: O95407 Related reagents Entrez Gene: 8771 TNFRSF6B Related reagents
--------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Synonyms	DCR3, TR6
-----------------	-----------

RRID	AB_2303707
-------------	------------

Specificity	<p>Rabbit anti Human DcR3 (N-Terminal) antibody recognizes the amino Terminal of human DcR3, otherwise known as Decoy Receptor 3, a ~33 kDa member of the tumour necrosis factor receptor superfamily.</p> <p>DcR3 acts as a receptor for FasL and LIGHT, preventing them from binding to their cell death receptors and thereby inhibiting apoptosis.</p> <p>DcR3 is a soluble decoy receptor found in adult stomach, spinal cord, lymph node, trachea, spleen and lung. It may also be found in fetal lung, brain and liver and is highly expressed in several primary tumors from colon, stomach, rectum, esophagus and in SW480 colon carcinoma cells.</p>
--------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Western Blotting	AHP1603 detects a band of approximately 33kDa in human heart lysate.
-------------------------	----------------------------------------------------------------------

Storage	Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
----------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Guarantee	12 months from date of despatch
------------------	---------------------------------

Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/AHP1603
--------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------
