

Datasheet: AHP1605

Description:	RABBIT ANTI HUMAN DEDAF
Specificity:	DEDAF
Other names:	APAP1
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin (1)	▪			
Western Blotting	▪			0.5 - 1.0ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.

Target Species	Human
Species Cross Reactivity	<p>Reacts with: Mouse, Rat</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
Product Form	Purified IgG - liquid
Antiserum Preparation	Antiserum to human DEDAF was raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline

Preservative Stabilisers	0.02% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 1 mg/ml.
Immunogen	A peptide corresponding to amino acids 215-228 of human DEDAF.
External Database Links	<p>UniProt: Q8N488 Related reagents</p> <p>Entrez Gene: 23429 RYBP Related reagents</p>
Synonyms	DEDAF, YEAF1
RRID	AB_2285467
Specificity	<p>Rabbit anti Human DEDAF antibody recognizes human death effector domain associated factor (DEDAF), also known as RING1 and YY1-binding protein, apoptin-associated protein 1 or death effector domain-associated factor or YY1 and E4TF1-associated factor 1. DEDAF is a 228 amino acid, ~32 kDa protein that associates with DED-containing proteins but does not itself contain a DED. DEDAF interacts with the death effector domains of FADD, DEDD and the proforms of caspase-8 and caspase-10. It augments the formation of complexes between CD95, FADD and caspase-8 at the cell membrane and enhances apoptosis. The protein, identified as RING1 and YY1 binding protein (RYBP) is implicated in the regulation of transcription (Sawa et al. 2002).</p>
Western Blotting	AHP1605 detects a band of approximately 32kDa in human A549 cell lysates.
Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/AHP1605 10040
Regulatory	For research purposes only
