

Datasheet: AHP1624

Description:	RABBIT ANTI TEM7
Specificity:	TEM7
Other names:	TEM3
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin (1)	▪			2.5ug/ml
Western Blotting	▪			0.5 - 1.0ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse, Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Antiserum Preparation

Antiserum to human TEM7 was raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers	0.02% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 1.0mg/ml
Immunogen	A peptide corresponding to a 16 amino acid sequence from near the center of human TEM7.
External Database Links	<p>UniProt: Q8IUK5 Related reagents</p> <p>Entrez Gene: 57125 PLXDC1 Related reagents</p>
Synonyms	TEM3, TEM7
RRID	AB_2166226
Specificity	<p>Rabbit anti Human TEM7 antibody recognises human Tumour endothelial marker 7, also known as TEM7, a 55.8 kDa protein belonging to the plexin family.</p> <p>TEM7 is strongly expressed in endothelial cells from colorectal cancer and from primary cancers of the lung, liver, brain, breast and pancreas. High expression of TEM7 is associated with metastasis and poor survival of patients with osteogenic sarcoma.</p> <p>There appear to be at least four isoforms of TEM7 which include membrane bound, secreted and intracellular forms. TEM7 is not detectable in endothelial cells from normal tissues.</p>
Histology Positive Control Tissue	Mouse liver
Western Blotting	AHP1624 detects a band of approximately 56kDa in rat liver cell lysates.
Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/AHP1624 10040
