

Datasheet: AHP1635

BATCH NUMBER 130114

Description:	RABBIT ANTI HUMAN CD282 (N-TERMINAL)
Specificity:	CD282 (N-TERMINAL)
Other names:	TLR2
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin (1)	▪			2.0ug
Western Blotting	▪			1.0ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1)This product requires antigen retrieval using heat treatment prior to staining of paraffin sections.Sodium citrate buffer pH 6.0 is recommended for this purpose.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse, Horse

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Antiserum Preparation

Antisera to Human CD282 (NT) were raised by repeated immunisation of Rabbits with highly purified antigen. Purified IgG prepared from whole serum by ion exchange chromatography

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.02% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 1.0mg/ml
Immunogen	A peptide corresponding to an 14 amino acid sequence from near the amino terminus of human CD282.
External Database Links	<p>UniProt: O60603 Related reagents</p> <p>Entrez Gene: 7097 TLR2 Related reagents</p>
Synonyms	TIL4
RRID	AB_2204578
Specificity	Rabbit anti Human CD282 antibody recognises CD282, also known as TLR-2, a ~90 kDa type 1 transmembrane protein that is primarily expressed by peripheral blood monocytes. CD282 is also expressed in the spleen, bone marrow and lymph nodes. CD282 is reported to respond to a diverse range of bacterial cell wall components, mediating the innate immune response in co-operation with MD-2.
Histology Positive Control Tissue	Human spleen
Western Blotting	AHP1635 detects a band of approximately 100kDa in A-20 cell lysate
