

Datasheet: AHP1659

Description:	RABBIT ANTI p53DINP1
Specificity:	p53DINP1
Other names:	TP53INP1
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin (1)	▪			2ug/ml
Western Blotting	▪			1.0 - 2.0ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse, Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Antiserum Preparation

Antiserum to p53DINP1 was raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by immunoaffinity chromatography.

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.02% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 1.0mg/ml
Immunogen	A peptide corresponding to 14 amino acids near the amino terminus of human p53DINP1.
External Database Links	<p>UniProt: Q96A56 Related reagents</p> <p>Entrez Gene: 94241 TP53INP1 Related reagents</p>
Synonyms	P53DINP1, SIP
RRID	AB_2240846
Specificity	<p>Rabbit anti p53DINP1 antibody recognizes p53DINP1 (p53-dependent damage-inducible nuclear protein 1). The protein promotes p53 phosphorylation on Ser46 in response to DNA double strand breaks, thereby inducing apoptosis. p53DINP1 is found in the nucleus and is ubiquitously expressed. Expression is dramatically reduced in pancreatic ductal adenocarcinomas early in the development of pancreatic cancer.</p> <p>Two isoforms of the protein exists, a 27kDa alpha and an 18kDa beta form. AHP1659 detects a band of 27kDa in human lung tissue lysate. In human spleen, and mouse liver and kidney tissue a band is detected at 18kDa.</p>
Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: 10040: https://www.bio-rad-antibodies.com/uploads/MSDS/10040.pdf
Regulatory	For research purposes only
