

Datasheet: AHP1727

Description:	RABBIT ANTI SFRP1		
Specificity:	SFRP1		
Other names:	sFRIZZLED RELATED PROTEIN-1		
Format:	Purified		
Product Type:	Polyclonal Antibody		
Isotype:	Polyclonal IgG		
Quantity:	50 µg		

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin (1)	•			20ug/ml
ELISA	•			1/5000 - 1/25000
Western Blotting	-			1/200 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1)This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse, Bovine, Rat N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.
Product Form	Purified IgG - liquid
Antiserum Prepara	tion Antisera to Human SFRP1 were raised by repeated immunisation of Rabbits with highly purified antigen. Purified IgG prepared from whole serum by affinity chromatography.

Buffer Solution	Phosphate buffered saline		
Preservative Stabilisers	0.01% Sodium Azide (NaN ₃)		
Approx. Protein Concentrations	IgG concentration 1.0mg/ml		
Immunogen	A synthetic peptide corresponding to amino acids 43-54 of human SFRP1.		
External Database Links	UniProt: Q8N474 Related reagents Entrez Gene: 6422 SFRP1 Related reagents		
Synonyms	FRP, FRP1, SARP2		
RRID	AB_2187071		
Specificity	Rabbit anti Human SFRP1 antibody recognizes the human Secreated Frizzled-Related Protein 1 (SFRP1), a multi functional secreted protein belonging to the sFRP family. sFRPS function as modulators of Wnt signalling and have a role in the regulation of cell growth and differentiation in specific cell types. SFRP1 is widely expressed in human tissues (though absent from the lung, liver and peripheral blood leucocytes). SFRP1 has an anti-proliferative effect upon vascular cells, delaying the G1 phase and entry into S-phase in the cell cycle.		
Histology Positive Control Tissue	Human heart		
Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C. Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.		
Guarantee	12 months from date of despatch		
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: 10040: https://www.bio-rad-antibodies.com/uploads/MSDS/10040.pdf		
Regulatory	For research purposes only
