

Datasheet: AHP1730

Description:	RABBIT ANTI HUMAN MYOSIN REGULATORY LIGHT CHAIN
Specificity:	MYOSIN (REGULATORY LIGHT CHAIN)
Other names:	LC20
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin (1)	▪			2.5ug/ml
ELISA	▪			1/5000 - 1/20000
Immunoprecipitation			▪	
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.

Target Species	Human
Species Cross Reactivity	<p>Reacts with: Mouse, Rat</p> <p>Based on sequence similarity, is expected to react with: Birds, Mammals</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
Product Form	Purified IgG - liquid

Antiserum Preparation Antisera to Human Myosin Regulatory Light Chain were raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG prepared from whole serum by affinity chromatography.

Buffer Solution Phosphate buffered saline

Preservative Stabilisers <0.1% Sodium Azide (NaN₃)

Approx. Protein Concentrations IgG concentration 0.5 mg/ml

Immunogen A synthetic peptide corresponding to amino acids 12-27 of human Myosin Regulatory Light Chain.

Specificity **Rabbit anti Human myosin regulatory light chain antibody** recognizes human myosin regulatory light chain (MRLC), also known as MYL9 and LC20.

Myosin is a hexamer composed of two high molecular weight heavy chains and four light chain subunits, which include two alkali light chains and two MRLCs. MRLC functions to stabilize the myosin heavy chain, and may also modulate the availability of cross bridges to bind to actin. Phosphorylation of the MRLC by myosin light chain kinase (MLCK) is necessary for smooth muscle contraction via activating myosin ATPase.

Histology Positive Control Tissue Smooth muscle

Storage This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

Guarantee 12 months from date of despatch
