

Datasheet: AHP1762

Description:	GOAT ANTI HUMAN IgG (Fc)
Specificity:	IgG (Fc)
Format:	Serum
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	1 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Turbidimetry	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
-----------------------	-------

Product Form	Serum - liquid
---------------------	----------------

Antiserum Preparation	Antisera to Human IgG (Fc) were raised by repeated immunisation of goats with highly purified antigen
------------------------------	---

Buffer Solution	TRIS buffered saline
------------------------	----------------------

Preservative Stabilisers	0.1% Sodium Azide (NaN ₃)
---------------------------------	---------------------------------------

Immunogen	Purified human IgG (Fc).
------------------	--------------------------

Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C. Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.
Guarantee	12 months from date of despatch
