

Datasheet: AHP1797

**BATCH NUMBER 158735**

<b>Description:</b>	RABBIT ANTI RIP3
<b>Specificity:</b>	RIP3
<b>Format:</b>	Purified
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	0.1 mg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin (1)	▪			5ug/ml
Western Blotting	▪			0.5 - 1.0ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

**(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.**

### Target Species

Mouse

### Species Cross Reactivity

Reacts with: Rat

**N.B.** Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

### Product Form

Purified IgG - liquid

### Antiserum Preparation

Antisera to mouse RIP3 were raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG prepared from whole serum by affinity chromatography.

### Buffer Solution

Phosphate buffered saline

<b>Preservative Stabilisers</b>	0.02% Sodium Azide (NaN <sub>3</sub> )
<b>Approx. Protein Concentrations</b>	IgG concentration 1.0mg/ml
<b>Immunogen</b>	Synthetic peptide sequence corresponding to amino acids 473-486 of mouse RIP3.
<b>External Database Links</b>	<p><b>UniProt:</b>  <a href="#">Q9QZL0</a>    <a href="#">Related reagents</a></p> <p><b>Entrez Gene:</b>  <a href="#">56532</a> Ripk3    <a href="#">Related reagents</a></p>
<b>Synonyms</b>	Rip3
<b>RRID</b>	AB_2178676
<b>Specificity</b>	<p><b>Rabbit anti RIP3 antibody</b> recognizes mouse serine-threonine kinase receptor-interacting protein 3 (RIP3). RIP3 is related to RIP and RIP2 but does not possess a death domain or CARD motif at its C-terminus. RIP3 activates NF-Kappa B and potently induces apoptosis.</p> <p>RIP3 is expressed in a range of tissues including the spleen, liver, testis, heart, brain and lung.</p>
<b>Histology Positive Control Tissue</b>	Rat kidney
<b>Western Blotting</b>	AHP1797 detects a band of approximately 56 kDa in Mouse 3T3 whole cell lysate

---

**Storage**

This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

---

**Guarantee**

12 months from date of despatch

---

**Health And Safety Information**

Material Safety Datasheet documentation #10040 available at: <https://www.bio-rad-antibodies.com/SDS/AHP1797>  
10040
