Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

**(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.**

<b>Target Species</b>	Human
<b>Product Form</b>	Purified IgG - lyophilized
<b>Reconstitution</b>	<p>Reconstitute with 0.1ml distilled water</p> <p>Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution. For long term storage the addition of 0.09% sodium azide is recommended.</p> <p>N.B. For functional studies do not add sodium azide</p>

**Antiserum Preparation** Antiserum to human PF-4 were raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative Stabilisers</b>	None present
<b>Carrier Free</b>	Yes
<b>Approx. Protein Concentrations</b>	IgG concentration 1.0mg/ml after reconstitution
<b>Immunogen</b>	Recombinant human PF-4.

<b>RRID</b>	AB_2299453
<b>Specificity</b>	<p><b>Rabbit anti Human Platelet Factor-4 antibody</b> recognizes platelet factor-4 (PF-4), otherwise known as CXCL4, a member of the intercrine alpha (chemokine CXC) family, released from the alpha granules of activated platelets, during platelet aggregation.</p> <p>PF-4 binds with high affinity to heparin, counteracting its' anticoagulant effect, thereby promoting blood coagulation, and implicating PF-4 in wound repair. PF-4 acts as a chemotactic factor for neutrophils, monocytes and fibroblasts, and binds with CXCR3B, a splice variant of the chemokine receptor CXCR3.</p>
<b>Storage</b>	<p>Prior to reconstitution store at -20°C. After reconstitution store at -20°C.</p> <p>This product should be stored undiluted. Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
