

Datasheet: AHP1939

Description:	RABBIT ANTI EGR1
Specificity:	EGR1
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin (1)	▪			10ug/ml
ELISA	▪			
Western Blotting	▪			
Functional Assays			▪	

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.

Target Species

Human

Species Cross Reactivity

Based on sequence similarity, is expected to react with: Bovine, Chimpanzee, Dog, Rhesus Monkey, Sheep

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Antiserum Preparation Antisera to Human EGR1 were raised by repeated immunisation of rabbits with highly

purified antigen. Purified IgG prepared from whole serum by affinity chromatography.

Buffer Solution	Phosphate buffered saline
------------------------	---------------------------

Preservative Stabilisers	<0.1% Sodium Azide (NaN ₃)
---------------------------------	--

Approx. Protein Concentrations	IgG concentration 0.5 mg/ml
---------------------------------------	-----------------------------

Immunogen	A synthetic peptide sequence corresponding to amino acid 94 - 108 of human EGR1.
------------------	--

External Database Links	UniProt: P18146 Related reagents Entrez Gene: 1958 EGR1 Related reagents

Synonyms	KROX24, ZNF225
-----------------	----------------

RRID	AB_2262092
-------------	------------

Specificity	<p>Rabbit anti EGR1 antibody recognizes human Early Growth Response Protein 1. EGR1 is a ~58 kDa nuclear protein belonging to the EGR family of C2H2-type zinc-finger proteins.</p> <p>EGR1 functions as a transcriptional regulator. The products of target genes it activates are required for differentiation and mitogenesis. Research has also demonstrated that EGR1 expression is elevated in a range of cancers including prostate cancer where EGR1 has been shown to promote the growth of tumor cells.</p>
--------------------	--

Histology Positive Control Tissue	Lung small cell carcinoma
--	---------------------------

-------------------	---

Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
----------------	---

Guarantee	12 months from date of despatch
------------------	---------------------------------
