

Datasheet: AHP2184 BATCH NUMBER 260615

| Description: | RABBIT ANTI HUMAN INTERLEUKIN-1RA |
|---------------|-----------------------------------|
| Specificity: | IL-1RA |
| Other names: | INTERLEUKIN-1 RECEPTOR ANTAGONIST |
| Format: | Purified |
| Product Type: | Polyclonal Antibody |
| Isotype: | Polyclonal IgG |
| Quantity: | 0.1 mg |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |
|----------------------------|-----|----|----------------|--------------------|
| Flow Cytometry | | | • | |
| Immunohistology - Frozen | | | | |
| Immunohistology - Paraffin | | | • | |
| ELISA | | | | 0.5 - 2.0ug/ml |
| Immunoprecipitation | | | • | |
| Western Blotting | • | | | 0.1 - 0.2ug/ml |
| Functional Assays | - | | | 2.5 - 3.7ug/ml |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

| Human |
|--|
| Purified IgG - lyophilised |
| Reconstitute with 0.1ml distilled water Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution. For long term storage the addition of 0.09% sodium azide is recommended. N.B. For functional studies do not add sodium azide. |
| |

Antiserum Preparation Antiserum to human IL-1RA were raised by repeated immunisation of rabbits with highly

purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

| Buffer Solution | Phosphate buffered saline | |
|--------------------------------|--|--|
| Preservative Stabilisers | None present | |
| Approx. Protein Concentrations | IgG concentration 1.0mg/ml after reconstitution | |
| Immunogen | Recombinant human IL-1RA (PHP080) | |
| External Database Links | UniProt: P18510 Related reagents Entrez Gene: 3557 IL1RN Related reagents | |
| Synonyms | IL1F3, IL1RA | |
| RRID | AB_10846099 | |
| Specificity | Rabbit anti Human interleukin-1 receptor antagonist antibody recognises human Interleukin-1 receptor antagonist (IL-1RA), a naturally occurring inflammatory inhibitor protein, produced by monocytes, macrophages, neutrophils, corneal epithelial cells and fibroblasts, which inhibits the activity of IL-1 alpha and IL-1 beta, by competitively blocking binding to cell surface receptors for IL-1. Genetic variations in IL-1RA gene (IL1RN) are associated with susceptibility to microvascular complications of diabetes type 4 (MVCD4), and IL-1RA has therapeutic applications in rheumatoid arthritis, asthma, psoriasis, sepsis, chronic myelogenous leukaemia and inflammatory bowel disease. | |
| ELISA | This purified human IL-1RA antibody may be used in an indirect ELISA or as the capture reagent in a sandwich ELISA with a <u>biotinylated human IL-1RA antibody</u> (AHP2184B) as the detection reagent and <u>recombinant human IL-1RA</u> (PHP080) as the standard. | |
| Western Blotting | This purified human IL-1RA antibody may used in Western Blotting applications under either reducing or non-reducing conditions with <u>recombinant human IL-1RA</u> (PHP080) as the positive control | |
| Storage | Prior to reconstitution store at +4°C. After reconstitution store at -20°C. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use. | |
| Guarantee | 12 months from date of reconstitution. | |
