

## Datasheet: AHP2305

Description:	RABBIT ANTI eNOS		
Specificity:	eNOS		
Other names:	NOS3		
Format:	Purified		
Product Type:	Polyclonal Antibody		
Isotype:	Polyclonal IgG		
Quantity:	50 µg		

## **Product Details**

Applications	This product has been reported to work in the following applications. This in derived from testing within our laboratories, peer-reviewed publications or per communications from the originators. Please refer to references indicated for information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .						
		Yes	No	Not Determined	Suggested Dilution		
	Western Blotting				0.5 - 4.0 ug/ml		
	Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.						
Target Species	Rat						
Species Cross Reactivity	Reacts with: Human Based on sequence similarity, is expected to react with:Mouse <b>N.B.</b> Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.						
Product Form	Purified IgG - liquid						
Buffer Solution	Phosphate buffered salin	e.					
Preservative	30% Glycerol						
Stabilisers	0.5% Bovine Serum Albu	ımin					
	5mM EDTA						
	0.03% ProClin 300						

Approx. Protein Concentrations	IgG concentration 0.5 mg/ml.
Immunogen	Synthetic peptide surrounding amino acid 602 of rat eNOS
External Database Links	UniProt: <u>Q62600</u> <u>Related reagents</u>
Specificity	<b>Rabbit anti eNOS antibody</b> recognizes endothelial nitric oxide synthase (eNOS). Endothelial NOS catalyses the synthesis of nitric oxide (NO), a signaling molecule and vasodilator, in the vascular endothelium. In addition to its role as a vasodilator, NO has important anti-inflammatory, anti-proliferative and anti-thrombotic properties.
Western Blotting	Rabbit anti eNOS antibody recognizes bands of approximately 140 kDa (Full length eNOS) and 60 kDa (cleaved fragment) in Jurkat cell lysates.
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch.
Acknowledgements	ProClin is a trademark of The Dow Chemical Company ("Dow") or an affiliated company of Dow.
Health And Safety Information	Material Safety Datasheet documentation #20377 available at: https://www.bio-rad-antibodies.com/SDS/AHP2305 20377
Regulatory	For research purposes only.
