

Datasheet: AHP2393B

BATCH NUMBER 135645

Description:	RABBIT ANTI PIG INTERLEUKIN-10:Biotin
Specificity:	IL-10
Other names:	CSIF
Format:	Biotin
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			0.05ug/ml - 0.5ug/ml
Immunoprecipitation			▪	
Western Blotting			▪	

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Pig
Product Form	Purified IgG conjugated to Biotin - liquid
Antiserum Preparation	Antisera to pig interleukin-10 were raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.02% Sodium Azide (NaN ₃)
Approx. Protein	IgG concentration 1.0 mg/ml

Concentrations

Immunogen Recombinant pig interleukin-10

Specificity

Rabbit anti Pig interleukin-10 antibody recognizes porcine interleukin-10 (IL-10), also known as cytokine synthesis inhibitory factor (CSIF). Porcine IL-10 is a 19.93 kDa anti-inflammatory cytokine belonging to the IL-10 family.

Secreted primarily by monocytes and to a lesser extent by certain T-cell subsets, porcine IL-10 functions in an inhibitory capacity downregulating Th1 cytokines, produced by activated macrophages.

ELISA

This product may be used as a detection antibody in a sandwich ELISA together with [AHP2393](#) as the capture reagent. Recombinant Pig interleukin-10 ([PPP025](#)) may be used as a standard.

Storage

Store at +4°C. DO NOT FREEZE.

This product should be stored undiluted. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee

12 months from date of despatch
