## Specificity

**Rabbit anti Pig interleukin-10 antibody** recognizes porcine interleukin-10 (IL-10), also known as cytokine synthesis inhibitory factor (CSIF). Porcine IL-10 is a 19.93 kDa anti-inflammatory cytokine belonging to the IL-10 family.

Secreted primarily by monocytes and to a lesser extent by certain T-cell subsets, porcine IL-10 functions in an inhibitory capacity downregulating Th1 cytokines, produced by activated macrophages.

## ELISA

This product may be used as a detection antibody in a sandwich ELISA together with [AHP2393](#) as the capture reagent. Recombinant Pig interleukin-10 ([PPP025](#)) may be used as a standard.
