

Datasheet: AHP2430

BATCH NUMBER 155494

Description:	RABBIT ANTI ANDROGEN RECEPTOR
Specificity:	ANDROGEN RECEPTOR
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	■			1/50 - 1/100
Western Blotting	■			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse

Based on sequence similarity, is expected to react with: Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Antiserum Preparation

Antiserum to androgen receptor was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution

Phosphate buffered saline

Preservative	0.02% Sodium Azide
Stabilisers	50% Glycerol
Immunogen	Synthetic peptide corresponding to amino acids 1-100 of the human androgen receptor.
External Database Links	UniProt: P10275 Related reagents Entrez Gene: 367 AR Related reagents
Synonyms	DHTR, NR3C4
Specificity	Rabbit anti androgen receptor antibody recognizes androgen receptor (AR), also known as the dihydrotestosterone receptor or nuclear receptor subfamily 3 group C member 4. Androgen receptor is a member of the steroid and nuclear receptor protein family. Androgen receptor is activated upon ligand binding and functions as a transcription factor transcribing androgen responsive genes.
Western Blotting	Rabbit anti androgen receptor antibody detects two isoforms of androgen receptor at approximately 70 kDa and 99 kDa in 22RV-1 cell lysate and mouse tissue lysate under reducing conditions
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: https://www.bio-rad-antibodies.com/SDS/AHP2430 10049
Regulatory	For research purposes only
