

Datasheet: AHP2432

BATCH NUMBER 170299

Description:	RABBIT ANTI AP2A1
Specificity:	AP2A1
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse, Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Antiserum Preparation

Antiserum to AP2A1 was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.02% Sodium Azide
50% Glycerol

Immunogen Recombinant human AP2A1

Synonyms

ADTAA, CLAPA1

Specificity

Rabbit anti AP2A1 antibody recognizes AP-2 complex subunit alpha-1 (encoded by AP2A1), also known as adaptor related protein complex 2 alpha 1 subunit, clathrin assembly protein complex 2 alpha-A large chain or alpha1-adaptin.

AP-2 complex subunit alpha-1 is a subunit of the adaptor protein complex (AP-2) and is involved in protein transport.

Western Blotting

Rabbit anti AP2A1 antibody detects a band of approximately 108 kDa in cell lysates and tissue lysates under reducing conditions

Storage

Store at -20°C

Storage in frost-free freezers is not recommended.

This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee

12 months from date of despatch
