

Datasheet: AHP2446

Description:	RABBIT ANTI CASEIN KINASE 2 ALPHA
Specificity:	CASEIN KINASE 2 ALPHA
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000 - 1/4000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse, Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Antiserum Preparation

Antiserum to casein kinase 2 alpha was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.02% Sodium Azide
50% Glycerol

Immunogen

Recombinant human casein kinase 2 alpha

External Database Links	UniProt: P68400 Related reagents Entrez Gene: 1457 CSNK2A1 Related reagents
Synonyms	CK2A1
Specificity	Rabbit anti casein kinase 2 alpha antibody recognizes casein kinase 2 alpha, also known as CK II alpha. Casein kinase 2 alpha is a catalytic subunit of casein kinase 2, a member of the serine-threonine protein kinase family. Casein kinase 2 plays a role in the regulation of multiple cellular processes including cell cycle control, transcription and apoptosis.
Western Blotting	Rabbit anti casein kinase 2 alpha antibody detects a band of approximately 45 kDa in cell lysates and tissue lysates under reducing conditions
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: 10049: https://www.bio-rad-antibodies.com/uploads/MSDS/10049.pdf
Regulatory	For research purposes only
