

Datasheet: AHP2449

BATCH NUMBER 156862

Description:	RABBIT ANTI CD126/IL-6R
Specificity:	CD126/IL-6R
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
-----------------------	-------

Product Form	Purified IgG - liquid
---------------------	-----------------------

Antiserum Preparation	Antiserum to CD126/IL-6R was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
------------------------------	--

Buffer Solution	Phosphate buffered saline
------------------------	---------------------------

Preservative Stabilisers	0.02% Sodium Azide 50% Glycerol
-------------------------------------	------------------------------------

Immunogen	Recombinant human CD126/IL-6R
------------------	-------------------------------

Entrez Gene:

Specificity	Rabbit anti CD126/IL-6R antibody recognizes CD126/IL-6R, also known as interleukin-6 receptor subunit alpha. CD126/IL-6R is a member of the type I cytokine receptor family. CD126/IL-6R binds to IL-6, the IL-6/IL-6R complex then associates with two molecules of interleukin 6 signal transducer (IL6ST), leading to signaling via the JAK/STAT pathway.
Western Blotting	Rabbit anti CD126/IL-6R antibody detects a band of approximately 52 kDa in cell lysates under reducing conditions
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: https://www.bio-rad-antibodies.com/SDS/AHP2449 10049
Regulatory	For research purposes only
