

Datasheet: AHP2449 BATCH NUMBER 158982

| Description: RABBIT ANTI CD126/IL- | eD. |
|---|-----|
| | -0K |
| Specificity: CD126/IL-6R | |
| Format: Purified | |
| Product Type: Polyclonal Antibody | |
| Isotype: Polyclonal IgG | |
| Quantity: 50 μl | |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |
|------------------|-----|----|----------------|--------------------|
| Western Blotting | | | | 1/500 - 1/2000 |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

| Target Species | Human |
|----------------|-----------------------|
| Product Form | Purified IgG - liquid |

Antiserum Preparation Antiserum to CD126/IL-6R was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

| Buffer Solution | Phosphate buffered saline |
|-----------------------------|------------------------------------|
| Preservative Stabilisers | 0.02% Sodium Azide 50% Glycerol |
| Immunogen | Recombinant human CD126/IL-6R |

| Specificity | Rabbit anti CD126/IL-6R antibody recognizes CD126/IL-6R, also known as interleukin-6 receptor subunit alpha. CD126/IL-6R is a member of the type I cytokine receptor family. CD126/IL-6R binds to IL-6, the IL-6/IL-6R complex then associates with two molecules of interleukin 6 signal transducer (IL6ST), leading to signaling via the JAK/STAT pathway. |
|----------------------------------|--|
| Western Blotting | Rabbit anti CD126/IL-6R antibody detects a band of approximately 52 kDa in cell lysates under reducing conditions |
| Storage | Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use. |
| Guarantee | 12 months from date of despatch |
| Health And Safety Information | Material Safety Datasheet documentation #10049 available at: https://www.bio-rad-antibodies.com/SDS/AHP2449 10049 |
| Regulatory | For research purposes only |
