

Datasheet: AHP2456

Description:	RABBIT ANTI C-IAP1
Specificity:	C-IAP1
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	▪			1/50 - 1/200
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species

Human

Species Cross Reactivity

Reacts with: Rat

Based on sequence similarity, is expected to react with: Mouse

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Antiserum Preparation

Antiserum to C-IAP1 was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.02% Sodium Azide

50% Glycerol

Immunogen	Recombinant human C-IAP1
External Database Links	<p>UniProt: Q13490 Related reagents</p> <p>Entrez Gene: 329 BIRC2 Related reagents</p>
Synonyms	API1, IAP2, MIHB, RNF48
Specificity	Rabbit anti C-IAP1 antibody recognizes cellular inhibitor of apoptosis 1 (C-IAP1), also known as baculoviral IAP repeat-containing protein 2 or inhibitor of apoptosis protein 2. C-IAP1 is a member of the inhibitor of apoptosis protein (IAP) family and is involved in the regulation of apoptosis and caspases. C-IAP1 also functions as an E3 ubiquitin-protein ligase and plays a role in innate immune signaling.
Western Blotting	Rabbit anti C-IAP1 antibody detects a band of approximately 70 kDa in cell lysates under reducing conditions
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: 10049: https://www.bio-rad-antibodies.com/uploads/MSDS/10049.pdf
Regulatory	For research purposes only
