

Datasheet: AHP2465

BATCH NUMBER 166788

Description:	RABBIT ANTI FADD
Specificity:	FADD
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	▪			1/50 - 1/200
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse, Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Antiserum Preparation

Antiserum to FADD was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.05% Proclin™300
50% Glycerol

Immunogen	Recombinant human FADD
External Database Links	<p>UniProt: Q13158 Related reagents</p> <p>Entrez Gene: 8772 FADD Related reagents</p>
Synonyms	MORT1
Specificity	Rabbit anti FADD antibody recognizes FADD, also known as Fas-associated death domain protein, MORT1, growth-inhibiting gene 3 protein or mediator of receptor induced toxicity. FADD is a 23 kDa protein consisting of a C-terminal death domain and an N-terminal death effector domain. FADD is involved in forming the death-inducing signalling complex (DISC) during apoptosis.
Western Blotting	Rabbit anti FADD antibody detects a band of approximately 25 kDa in cell lysates and tissue lysates under reducing conditions
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Acknowledgements	ProClin™ is a trademark of The Dow Chemical Company ("Dow") or an affiliated company of Dow.
Health And Safety Information	Material Safety Datasheet documentation #20376 available at: https://www.bio-rad-antibodies.com/SDS/AHP2465 20376
Regulatory	For research purposes only
