# Datasheet: AHP2500 BATCH NUMBER 141465

| Description:  | RABBIT ANTI NCF1    |  |  |
|---------------|---------------------|--|--|
| Specificity:  | NCF1                |  |  |
| Format:       | Purified            |  |  |
| Product Type: | Polyclonal Antibody |  |  |
| lsotype:      | Polyclonal IgG      |  |  |
| Quantity:     | 50 µl               |  |  |

## **Product Details**

| Applications                | This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> . |             |            |                         |                     |
|-----------------------------|--|-------------|------------|-------------------------|---------------------|
|                             |  | Yes         | No         | Not Determined          | Suggested Dilution  |
|                             | Western Blotting   | -           |            |                         | 1/500 - 1/2000      |
|                             | Where this product has r   |             |            | •                       | •                   |
|                             | necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.  |             |            |                         |                     |
| Target Species              | Human  |             |            |                         |                     |

| Specificity                      | <b>Rabbit anti NCF1 antibody</b> recognizes neutrophil cytosol factor 1 also known as NOXO2, p47phox or SH3PXD1A. NCF1 is involved in the production of superoxide via activation of the transmembrane NADPH oxidase 2 complex.  |
| Western Blotting                 | Rabbit anti NCF1 antibody detects a band of approximately 45 kDa in cell lysates and tissue lysates under reducing conditions  |
| Storage                          | Store at -20°C<br>Storage in frost-free freezers is not recommended.<br>This product should be stored undiluted. Avoid repeated freezing and thawing as this may<br>denature the antibody. Should this product contain a precipitate we recommend<br>microcentrifugation before use. |
| Guarantee                        | 12 months from date of despatch  |
| Health And Safety<br>Information | Material Safety Datasheet documentation #10049 available at:<br>https://www.bio-rad-antibodies.com/SDS/AHP2500<br>10049  |
| Regulatory                       | For research purposes only   |
