

Datasheet: AHP2505

Description:	scription: RABBIT ANTI PAK2	
Specificity:	PAK2	
Format:	Purified	
Product Type:	Polyclonal Antibody	
Isotype:	Polyclonal IgG	
Quantity:	50 µl	

50% Glycerol

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.biorad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	-			1/50 - 1/200
Western Blotting	•			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Species Cross	Reacts with: Mouse
Reactivity	Based on sequence similarity, is expected to react with:Rat N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.
Product Form	Purified IgG - liquid
Antiserum Preparation	n Antiserum to PAK2 was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.02% Sodium Azide 50% Glycerol

Immunogen	Recombinant human PAK2
External Database Links	UniProt: Q13177 Related reagents
	Entrez Gene: <u>5062</u> PAK2 <u>Related reagents</u>
Specificity	Rabbit anti PAK2 antibody recognizes PAK2 also known as p21 protein (Cdc42/Rac)-activated kinase 2. PAK2 is a member of the p21 activated kinases (PAK) which act downstream of Rho GTPases. PAKs are involved in regulation of the cytoskeleton and nuclear signaling.
Western Blotting	Rabbit anti PAK2 antibody detects a band of approximately 65 kDa in Jurkat cell lysate and mouse tissue lysates under reducing conditions
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: https://www.bio-rad-antibodies.com/SDS/AHP2505 10049
Regulatory	For research purposes only
