

## Datasheet: AHP2509

**BATCH NUMBER 148062**

<b>Description:</b>	RABBIT ANTI PIDD
<b>Specificity:</b>	PIDD
<b>Format:</b>	Purified
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	50 µl

### Product Details

#### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/500 - 1/1000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

#### Target Species

Human

#### Species Cross Reactivity

Based on sequence similarity, is expected to react with: Mouse, Rat

**N.B.** Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

#### Product Form

Purified IgG - liquid

#### Antiserum Preparation

Antiserum to PIDD was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

#### Buffer Solution

Phosphate buffered saline

#### Preservative Stabilisers

0.02% Sodium Azide  
50% Glycerol

<b>Immunogen</b>	Recombinant human PIDD
<b>External Database Links</b>	<p><b>UniProt:</b>  <a href="#">Q9HB75</a>    <a href="#">Related reagents</a></p> <p><b>Entrez Gene:</b>  <a href="#">55367</a>    LRDD    <a href="#">Related reagents</a></p>
<b>Synonyms</b>	PIDD
<b>Specificity</b>	<b>Rabbit anti PIDD antibody</b> recognizes PIDD also known as p53-induced death domain protein 1. PIDD is a scaffold protein that interacts with both pro-death and pro-survival proteins following DNA damage. PIDD undergoes cleavage producing several smaller fragments which bind to either pro-death or pro-survival signaling molecules.
<b>Western Blotting</b>	Rabbit anti PIDD antibody detects a band of approximately 110 kDa in cell lysates under reducing conditions
<b>Storage</b>	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
<b>Guarantee</b>	12 months from date of despatch
<b>Health And Safety Information</b>	Material Safety Datasheet documentation #10049 available at: 10049: <a href="https://www.bio-rad-antibodies.com/uploads/MSDS/10049.pdf">https://www.bio-rad-antibodies.com/uploads/MSDS/10049.pdf</a>
<b>Regulatory</b>	For research purposes only
