

## Datasheet: AHP2511

**BATCH NUMBER 158014**

<b>Description:</b>	RABBIT ANTI PLD2
<b>Specificity:</b>	PLD2
<b>Format:</b>	Purified
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	50 µl

### Product Details

#### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000 - 1/3000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

<b>Target Species</b>	Human
-----------------------	-------

<b>Product Form</b>	Purified IgG - liquid
---------------------	-----------------------

**Antiserum Preparation** Antiserum to PLD2 was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

<b>Buffer Solution</b>	Phosphate buffered saline
------------------------	---------------------------

<b>Preservative</b>	0.02% Sodium Azide
<b>Stabilisers</b>	50% Glycerol

<b>Immunogen</b>	Recombinant human PLD2
------------------	------------------------

---

<b>Specificity</b>	<b>Rabbit anti PLD2 antibody</b> recognizes PLD2 also known as phospholipase D2. The phospholipase D family catalyze the hydrolysis of phosphatidylcholine to produce phosphatidic acid and choline. Phospholipases are activated by tyrosine kinase and G protein coupled receptors.
<b>Western Blotting</b>	Rabbit anti PLD2 antibody detects a band of approximately 110 kDa in cell lysates under reducing conditions
<b>Storage</b>	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
<b>Guarantee</b>	12 months from date of despatch
<b>Health And Safety Information</b>	Material Safety Datasheet documentation #10049 available at: <a href="https://www.bio-rad-antibodies.com/SDS/AHP2511">https://www.bio-rad-antibodies.com/SDS/AHP2511</a> 10049
<b>Regulatory</b>	For research purposes only
