

## Datasheet: AHP2531

**BATCH NUMBER 153528**

<b>Description:</b>	RABBIT ANTI TIMP-2
<b>Specificity:</b>	TIMP-2
<b>Format:</b>	Purified
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	50 µl

### Product Details

#### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

#### Target Species

Human

#### Species Cross Reactivity

Based on sequence similarity, is expected to react with: Mouse, Rat  
**N.B.** Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

#### Product Form

Purified IgG - liquid

#### Antiserum Preparation

Antiserum to TIMP-2 was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

#### Buffer Solution

Phosphate buffered saline

#### Preservative Stabilisers

0.02% Sodium Azide  
 50% Glycerol

**Immunogen** Recombinant human TIMP-2

---

**Specificity**

**Rabbit anti TIMP-2 antibody** recognizes tissue inhibitor of metalloproteinases 2 (TIMP-2) also known as metalloproteinase inhibitor 2 and CSC-21K. TIMP-2 belongs to the protease inhibitor I35 family of proteins and irreversibly inactivates metalloproteinases by complexing and binding to the catalytic zinc cofactor.

---

**Western Blotting**

Rabbit anti TIMP-2 antibody detects a band of approximately 24 kDa in SW480 cell lysate under reducing conditions

---

**Storage**

Store at -20°C  
Storage in frost-free freezers is not recommended.  
This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

---

**Guarantee**

12 months from date of despatch

---

**Health And Safety Information**

Material Safety Datasheet documentation #10049 available at:
