

Datasheet: AHP2532

BATCH NUMBER 147629

Description:	RABBIT ANTI TISSUE TRANSGLUTAMINASE
Specificity:	TISSUE TRANSGLUTAMINASE
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	■			1/100 - 1/200
Western Blotting	■			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Species Cross Reactivity	<p>Reacts with: Mouse</p> <p>Based on sequence similarity, is expected to react with: Rat</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
Product Form	Purified IgG - liquid
Antiserum Preparation	Antiserum to tissue transglutaminase was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline

Preservative	0.02% Sodium Azide
Stabilisers	50% Glycerol
Immunogen	Recombinant human tissue transglutaminase
External Database Links	UniProt: P21980 Related reagents Entrez Gene: 7052 TGM2 Related reagents
Specificity	Rabbit anti tissue transglutaminase antibody recognizes tissue transglutaminase, also known as protein-glutamine gamma-glutamyltransferase 2. Tissue transglutaminase belongs to the transglutaminase family of proteins and is an enzyme which catalyzes protein cross-linking and addition of polyamines to proteins.
Western Blotting	Rabbit anti tissue transglutaminase antibody detects a band of approximately 90 kDa in cell lysates under reducing conditions
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: https://www.bio-rad-antibodies.com/SDS/AHP2532 10049
Regulatory	For research purposes only
