

## Datasheet: AHP2533

**BATCH NUMBER 171022**

<b>Description:</b>	RABBIT ANTI TRADD
<b>Specificity:</b>	TRADD
<b>Format:</b>	Purified
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	50 µl

### Product Details

#### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	▪			1/50 - 1/200
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

#### Target Species

Human

#### Species Cross Reactivity

Reacts with: Mouse, Rat  
**N.B.** Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

#### Product Form

Purified IgG - liquid

#### Antiserum Preparation

Antiserum to TRADD was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

#### Buffer Solution

Phosphate buffered saline

#### Preservative Stabilisers

0.05% ProClin 300  
 50% Glycerol

**Immunogen** Recombinant human TRADD

---

**Specificity**

**Rabbit anti TRADD antibody** recognizes tumor necrosis factor receptor type 1-associated DEATH domain protein also known as TRADD. TRADD belongs to the death receptor family of proteins and is an adaptor molecule that interacts with TRANSF1A/TNFR1. TRADD plays a key role in apoptosis and NF-kappaB activation.

---

**Western Blotting**

Rabbit anti TRADD antibody detects both TRADD isoforms at approximately 34 kDa and 29 kDa in cell lysates and in tissue under reducing conditions

---

**Storage**

Store at -20°C  
Storage in frost-free freezers is not recommended.  
This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

---

**Guarantee**

12 months from date of despatch
