

Datasheet: AHP2542

Description:	RABBIT ANTI 4EBP1 (pSer65)
Specificity:	4EBP1 (pSer65)
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species

Human

Species Cross Reactivity

Based on sequence similarity, is expected to react with: Mouse, Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Antiserum Preparation

Antiserum to 4EBP1 (pSer65) was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.02% Sodium Azide
50% Glycerol

Immunogen

Phospho specific-peptide corresponding to residues surrounding serine 65 of human 4EBP1

External Database**Links****UniProt:**[Q13541](#) [Related reagents](#)**Entrez Gene:**[1978](#) EIF4EBP1 [Related reagents](#)

Specificity

Rabbit anti 4EBP1 (pSer65) antibody recognizes eukaryotic translation initiation factor 4E-binding protein 1 (4EBP1) also known as phosphorylated heat-and acid-stable protein regulated by insulin 1 (PHAS-I), when phosphorylated at serine 65. 4EBP1 belongs to the eIF4E-binding protein family.

4EBP1, when bound to eIF4E, inhibits cap-dependent translation. Phosphorylation at serine 65 inhibits binding of 4EBP1 to eIF4F allowing cap-dependent translation.

Storage

Store at -20°C

Storage in frost-free freezers is not recommended.

This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee

12 months from date of despatch

Health And Safety Information
