

Datasheet: AHP2555

Description:	RABBIT ANTI ATM (pSer1981)
Specificity:	ATM (pSer1981)
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	▪			1/50 - 1/100
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species Human

Product Form Purified IgG - liquid

Antiserum Preparation Antiserum to ATM (pSer1981) was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution Phosphate buffered saline

Preservative 0.02% Sodium Azide
Stabilisers 50% Glycerol

Immunogen Phospho specific-peptide corresponding to residues surrounding serine 1981 of human ATM

Specificity	Rabbit anti ATM (pSer1981) antibody recognizes serine-protein kinase ATM, also known as ataxia telangiectasia mutated, when phosphorylated at serine 1981. ATM is a serine/threonine protein kinase and a member of the PI3K/P14K-kinase family. ATM is a cell cycle checkpoint kinase that exists as an inactive dimer. In response to DNA damage, autophosphorylation of ATM at serine 1981 occurs, resulting in the dissociation of the dimer and initiating ATM kinase activity (Bakkenist and Kastan 2003).
Further Reading	1. Bakkenist, C.J. & Kastan, M.B. (2003) DNA damage activates ATM through intermolecular autophosphorylation and dimer dissociation Nature. 421 (6922): 499-506 .
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: 10049: https://www.bio-rad-antibodies.com/uploads/MSDS/10049.pdf
Regulatory	For research purposes only
