

Datasheet: AHP2585

Description:	RABBIT ANTI E3 UBIQUITIN-PROTEIN LIGASE CBL (pTyr700)
Specificity:	E3 UBIQUITIN-PROTEIN LIGASE CBL (pTyr700)
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	▪			1/50 - 1/100
Western Blotting	▪			1/500 - 1/1000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species Human

Product Form Purified IgG - liquid

Antiserum Preparation Antiserum to E3 ubiquitin-protein ligase CBL (pTyr700) was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution Phosphate buffered saline

Preservative Stabilisers 0.02% Sodium Azide
50% Glycerol

Immunogen Phospho specific-peptide corresponding to residues surrounding tyrosine 700 of human E3 ubiquitin-protein ligase CBL

Synonyms	CBL2, RNF55
-----------------	-------------

Specificity	<p>Rabbit anti E3 ubiquitin-protein ligase CBL (pTyr700) antibody recognizes the Casitas B-lineage lymphoma (CBL) E3 ubiquitin ligase, also known as c-CBL proto-oncogene and ring finger protein 55, when phosphorylated at tyrosine 700. The CBL protein is a RING finger E3-ubiquitin ligase that plays a key role in signal transduction through mediating monoubiquitination and endocytosis of receptor tyrosine kinases (Haglund et al. 2002, Dikic and Giordano 2003).</p> <p>E3 ubiquitin-protein ligase CBL is phosphorylated at tyrosine 700 by Fyn, Yes and Syk (Feshchenko et al. 1998).</p>
