

# Datasheet: AHP2618

Description:	RABBIT ANTI FOXO1A (pSer319)
Specificity:	FOXO1A (pSer319)
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

## **Product Details**

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .						
	Western Blotting	•			1/500 - 1/2000		
	Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.						
Target Species	Human						
Species Cross Reactivity	Reacts with: Mouse <b>N.B.</b> Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.						
Product Form	Purified IgG - liquid						
Antiserum Preparation	on Antiserum to FOXO1A (pSer319) was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.						
Buffer Solution	Phosphate buffered salir	ie					
Preservative Stabilisers	0.02% Sodium Azide 50% Glycerol						
Immunogen	Phospho specific-peptide	e correspo	nding to re	esidues surrounding s	serine 319 of human		

FOXO1A

	Entrez Gene:				
	2308 FOXO1 Related reagents				
Synonyms	FKHR, FOXO1A				
Specificity	Rabbit anti FOXO1A (pSer319) antibody recognizes FOXO1A, when phosphorylated at				
	serine 319. FOXO1A is a member of the forkhead family of transcription factors. Residue				
	319 of FOXO1A is phosphorylated by a number of kinases including AKT. Phosphorylation				
	of FOXO1A at serine 319 results in decreased transcriptional activity and export of				
	FOXO1A from the nucleus.				
Storage	Store at -20°C				
	Storage in frost-free freezers is not recommended.				
	This product should be stored undiluted. Avoid repeated freezing and thawing as this may				
	denature the antibody. Should this product contain a precipitate we recommend				
	microcentrifugation before use.				
Guarantee	12 months from date of despatch				
Health And Safety	Material Safety Datasheet documentation #10049 available at:				
Information	10049: https://www.bio-rad-antibodies.com/uploads/MSDS/10049.pdf				
Regulatory	For research purposes only
