

Datasheet: AHP2620

BATCH NUMBER 141578

Description:	RABBIT ANTI FOXO4 (pSer197)
Specificity:	FOXO4 (pSer197)
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	▪			1/50 - 1/100
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species

Human

Species Cross Reactivity

Based on sequence similarity, is expected to react with: Mouse, Rat
N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Antiserum Preparation

Antiserum to FOXO4 (pSer197) was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.02% Sodium Azide

50% Glycerol

Immunogen	Phospho specific-peptide corresponding to residues surrounding serine 197 of human FOXO4
------------------	--

Synonyms	AFX, AFX1, MLLT7
-----------------	------------------

Specificity	Rabbit anti FOXO4 (pSer197) antibody recognizes FOXO4, when phosphorylated at serine 197. FOXO4 is a member of the forkhead family of transcription factors. Residue 197 of FOXO4 is phosphorylated by a number of kinases including AKT. Phosphorylation of FOXO4 at serine 197 results in decreased transcriptional activity and export of FOXO4 from the nucleus.
--------------------	---

Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
----------------	--

Guarantee	12 months from date of despatch
------------------	---------------------------------

Health And Safety Information	Material Safety Datasheet documentation #10049 available at: https://www.bio-rad-antibodies.com/SDS/AHP2620 10049
--------------------------------------	--

Regulatory	For research purposes only
-------------------	----------------------------
