

## Datasheet: AHP2630

<b>Description:</b>	RABBIT ANTI HEAT SHOCK PROTEIN 27 (pSer82)
<b>Specificity:</b>	HEAT SHOCK PROTEIN 27 (pSer82)
<b>Format:</b>	Purified
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	50 µl

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	▪			1/50 - 1/100
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

### Target Species

Human

### Species Cross Reactivity

Based on sequence similarity, is expected to react with:Rat

**N.B.** Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

### Product Form

Purified IgG - liquid

### Antiserum Preparation

Antiserum to heat shock protein 27 (pSer82) was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

### Buffer Solution

Phosphate buffered saline

### Preservative Stabilisers

0.02% Sodium Azide  
50% Glycerol

**Immunogen** Phospho specific-peptide corresponding to residues surrounding serine 82 of human heat shock protein 27

---

**Specificity** **Rabbit anti Heat shock protein 27 (pSer82) antibody** recognizes heat shock protein 27, also known as heat shock protein beta-1, estrogen-regulated 24 kDa protein or stress-responsive protein 27, when phosphorylated at serine 82.

Heat shock protein 27 is a molecular chaperone protein. Heat shock protein 27 exerts an anti-apoptotic effect via inhibition of the cytochrome-c/procaspase-9 pathway. Phosphorylation of heat shock protein 27 at serine 82 occurs via the p38 MAPK pathway and contributes to significant alterations in the protein structure and protein-protein interactions of heat shock protein 27.

---

**Storage**

Store at -20°C

Storage in frost-free freezers is not recommended.

This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

---

**Guarantee**

12 months from date of despatch

---

**Health And Safety Information**

Material Safety Datasheet documentation #10049 available at:  
10049: <https://www.bio-rad-antibodies.com/uploads/MSDS/10049.pdf>

---

**Regulatory**

For research purposes only
