

Datasheet: AHP2646

Description:	RABBIT ANTI MAPKAPK2 (pThr334)
Specificity:	MAPKAPK2 (pThr334)
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin	▪			1/50 - 1/100
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Species Cross Reactivity	Based on sequence similarity, is expected to react with: Mouse, Rat N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Antiserum Preparation	Antiserum to MAPKAPK2 (pThr334) was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline
Preservative	0.02% Sodium Azide
Stabilisers	50% Glycerol
Immunogen	Phospho specific-peptide corresponding to residues surrounding threonine 334 of human MAPKAPK2
External Database Links	<p>UniProt: P49137 Related reagents</p> <p>Entrez Gene: 9261 MAPKAPK2 Related reagents</p>

Specificity **Rabbit anti MAPKAPK2 (pThr334) antibody** recognizes MAP kinase-activated protein kinase 2 (MAPKAPK2), when phosphorylated at threonine 334. MAPKAPK2 belongs to the CAMK serine/threonine protein kinase family and is activated in response to cellular stress and cytokines. MAPKAPK2 is phosphorylated at threonine 222, serine 272 and threonine 334 by MAPK14 ([Ben-Levy *et al.* 1995](#)).

Further Reading 1. Ben-Levy, R. *et al.* (1995) Identification of novel phosphorylation sites required for activation of MAPKAP kinase-2. [EMBO J. 14 \(23\): 5920-30](#).

Storage Store at -20°C
Storage in frost-free freezers is not recommended.
This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 12 months from date of despatch
