

## Datasheet: AHP2651

<b>Description:</b>	RABBIT ANTI MEK 1/2 (pSer217/pSer221)
<b>Specificity:</b>	MEK 1/2 (pSer217/pSer221)
<b>Format:</b>	Purified
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	50 µl

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/500 - 1/1000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

### Target Species

Human

### Species Cross Reactivity

Based on sequence similarity, is expected to react with: Mouse, Rat

**N.B.** Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

### Product Form

Purified IgG - liquid

### Antiserum Preparation

Antiserum to MEK 1/2 (pSer217/pSer221) was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

### Buffer Solution

Phosphate buffered saline

### Preservative Stabilisers

0.02% Sodium Azide  
50% Glycerol

### Immunogen

Phospho specific-peptide corresponding to residues surrounding serine 217/221 of human

**Synonyms**

MEK1, MEK2, MKK2, PRKMK1, PRKMK2

---

**Specificity**

**Rabbit anti MEK 1/2 (pSer217/pSer221) antibody** recognizes MAPK/ERK kinase 1 (MEK 1) and MAPK/ERK kinase 2 (MEK 2), also known as MAP kinase kinase 1 (MAPKK 1) and MAP kinase kinase 2 (MAPKK 2) respectively, when phosphorylated at serine 217 and serine 221. MEK 1 and MEK 2 are integral components of the MAP kinase cascade that regulate cell growth and differentiation.

MEK1 and MEK2 are phosphorylated at serine 217 and serine 221 by Raf kinases, increasing the activity of MEK 1 and MEK 2 ([Matallanas et al. 2011](#)).

---

**Storage**

Store at -20°C

Storage in frost-free freezers is not recommended.

This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
