

Datasheet: AHP2661

BATCH NUMBER 141618

Description:	RABBIT ANTI NFkB p100 (pSer870)
Specificity:	NFkB p100 (pSer870)
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - liquid
Antiserum Preparation	Antiserum to NFkB p100 (pSer870) was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline
Preservative	0.02% Sodium Azide
Stabilisers	50% Glycerol
Immunogen	Phospho specific-peptide corresponding to residues surrounding serine 870 of human NFkB p100

Synonyms	LYT10
-----------------	-------

Specificity	<p>Rabbit anti NFkB p100 (pSer870) antibody recognizes nuclear factor NF-kappa-B p100 subunit (NFkB p100), also known as lymphocyte translocation chromosome 10 protein, nuclear factor Kappa-B subunit 2, nuclear factor of Kappa light chain gene enhancer in B cells 2, oncogene Lyt-10 or transcription factor NFKB2, when phosphorylated at serine 870.</p> <p>NFkB p100 is a subunit of the NFkB transcription factor complex that is cleaved to form the NFkB p52 subunit. The NFkB pathway plays a critical role in mediating immune responses after infection and has been implicated in a variety of diseases ranging from autoimmune disorders to cancer.</p> <p>Phosphorylation of NFkB p100 at serine 870 is mediated by MAP3K14 (Xiao et al. 2001).</p>

------------------------	---

Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
----------------	--

Guarantee	12 months from date of despatch
------------------	---------------------------------

Health And Safety Information	Material Safety Datasheet documentation #10049 available at: https://www.bio-rad-antibodies.com/SDS/AHP2661 10049
--------------------------------------	---

Regulatory	For research purposes only
-------------------	----------------------------
