

# Datasheet: AHP2721 BATCH NUMBER 148105

Description:	RABBIT ANTI SEC61B
Specificity:	SEC61B
Format:	Purified
<b>Product Type:</b>	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 μl

## **Product Details**

#### **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting				1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Species Cross	Reacts with: Mouse
Reactivity	<b>N.B.</b> Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

|--|

**Antiserum Preparation** Antiserum to SEC61B was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution	Phosphate buffered saline
Preservative	0.02% Sodium Azide
Stabilisers	50% Glycerol

Immunogen A synthetic peptide corresponding to a sequence within amino acids 1-96 of human

SEC61B

**Specificity** 

Rabbit anti SEC61B antibody recognizes protein transport protein Sec61 subunit beta (SEC61B). SEC61B is a subunit of the SEC61 protein translocation channel at the endoplasmic reticulum (<u>Pfeffer et al. 2015</u>). The SEC61 translocon is important for protein import and export (<u>Rapoport 2007</u>). SEC61B is important in EGF R trafficking to the nucleus (<u>Liao and Carpenter 2007</u>). Measurement of SEC61B autoantibody levels may provide an alternative detection indicator for human colorectal cancer (<u>Fan et al. 2011</u>).

**Western Blotting** 

Rabbit anti SEC61B antibody detects a band of approximately 12 kDa in various cell and tissue lysates under reducing conditions

Storage

Store at -20°C

Storage in frost-free freezers is not recommended.

This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend

microcentrifugation before use.

Guarantee

12 months from date of despatch
