

Datasheet: AHP2731

Description:	RABBIT ANTI CYTOCHROME P450 1B1
Specificity:	CYTOCHROME P450 1B1
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µl

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/500 - 1/2000
Immunofluorescence	▪			1/50 - 1/200

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species Human

Product Form Purified IgG - liquid

Antiserum Preparation Antiserum to cytochrome P450 1B1 was raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution Phosphate buffered saline

Preservative Stabilisers 0.02% Sodium Azide
50% Glycerol

Immunogen Recombinant fusion protein containing a sequence corresponding to amino acids 1-260 of human cytochrome P450 1B1

Specificity	Rabbit anti cytochrome P450 1B1 antibody recognizes cytochrome P450 1B1, also known as CYP1B1. It is a member of the cytochrome P450 superfamily of enzymes. It catalyses the hydroxylation of 17- β -oestradiol at the C4 position (Jefcoate et al. 2000 , Potter et al. 2002). A number of Cytochrome P450 1B1 mutations are associated with primary congenital glaucoma (Rauf et al. 2016).
Western Blotting	Rabbit anti cytochrome P450 1B1 antibody detects a band of approximately 62 kDa in various cell and tissue lysates under reducing conditions
Storage	Store at -20°C Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: https://www.bio-rad-antibodies.com/SDS/AHP2731 10049
Regulatory	For research purposes only
