

Datasheet: AHP2805Z

Description:	RABBIT ANTI HUMAN GITRL:Preservative Free
Specificity:	GITRL
Other names:	TNFSF18
Format:	Preservative Free
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			0.5 ug/ml - 2.0 ug/ml
Western Blotting	▪			0.1 ug/ml - 0.2 ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - lyophilized
Reconstitution	Reconstitute with 0.1 ml distilled water
Antiserum Preparation	Produced from sera of rabbits immunized with recombinant human AITRL and purified by affinity chromatography
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	None present
Carrier Free	Yes
Endotoxin Level	< 0.1 ng/μg of protein (< 1 EU/μg)

Approx. Protein Concentrations	IgG concentration 1.0 mg/ml after reconstitution
Immunogen	<i>E. coli</i> derived recombinant human GITRL
External Database Links	<p>UniProt: Q9UNG2 Related reagents</p> <p>Entrez Gene: 8995 TNFSF18 Related reagents</p>
Synonyms	AITRL, GITRL, TL6
Specificity	<p>Rabbit anti Human GITRL antibody recognizes Glucocorticoid-Induced TNF-Related Ligand (GITRL) also known as activation-inducible TNF-related ligand and TNFSF18.</p> <p>GITRL is expressed in many components of the innate and adaptive immune system, but is mainly expressed on antigen presenting cells (Nocentini et al. 2007).</p> <p>GITRL is a ligand of the receptor GITR, upon binding of its ligand, GITR is activated and plays a role in autoimmune/inflammatory processes and regulates leukocyte extravasation (Krausz et al. 2007, Nocentini et al. 2007).</p>
Storage	<p>Prior to reconstitution store at -20°C. After reconstitution store at -20°C.</p> <p>This product should be stored undiluted. Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10294 available at: https://www.bio-rad-antibodies.com/SDS/AHP2805Z 10294
Regulatory	For research purposes only
