

Datasheet: AHP2813

Description:	RABBIT ANTI SHEEP INTERLEUKIN-22
Specificity:	IL-22
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			0.5 ug/ml - 5.0 ug/ml
Western Blotting	▪			0.1 ug/ml - 2.0 ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Sheep
-----------------------	-------

Product Form	Purified IgG - liquid
---------------------	-----------------------

Antiserum Preparation	Antiserum to sheep interleukin-22 was raised by repeated immunization of rabbit with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
------------------------------	--

Buffer Solution	Phosphate buffered saline
------------------------	---------------------------

Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
---------------------------------	--

Approx. Protein Concentrations	IgG concentration 0.5 mg/ml
---------------------------------------	-----------------------------

Immunogen	Recombinant ovine IL-22
------------------	-------------------------

External Database**Links****UniProt:**[H2AKX1](#)[Related reagents](#)**Specificity**

Rabbit anti Sheep Interleukin-22 recognizes sheep interleukin-22 (IL-22), a 21.4 kDa regulatory cytokine belonging to the IL-10 family.

Sheep IL-22 is produced in a range of cell types that include activated T cells and dendritic cells, subsets of splenic cells and Th17 cells. Ovine IL-22 modulates the inflammatory responses to bacterial pathogens, in particular in epithelial cells of the respiratory and gastrointestinal tracts.

ELISA

This product may be used as a capture antibody in a sandwich ELISA together with [AHP2813B](#) as the detection reagent. [PSP007](#) may be used as a standard.

Storage

Store at +4°C. DO NOT FREEZE.

This product should be stored undiluted. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee

12 months from date of despatch

Health And Safety Information
