

Datasheet: AHP2821B

Description:	RABBIT ANTI PIG EOTAXIN 1:Biotin
Specificity:	EOTAXIN 1
Format:	Biotin
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			0.05 ug/ml - 0.5 ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Pig
Product Form	Purified IgG conjugated to Biotin - liquid

Antiserum Preparation Antiserum to pig eotaxin 1 was raised by repeated immunization of rabbit with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)

Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
---------------------------------------	-----------------------------

Immunogen	Recombinant pig Eotaxin 1
------------------	---------------------------

External Database Links	UniProt: F1S162 Related reagents
--------------------------------	--

Specificity **Rabbit anti Pig Eotaxin 1** recognizes pig eotaxin 1, also known as chemokine ligand 11 (CCL11).

Eotaxin 1 is produced by endothelial cells, smooth muscle cells, epithelial cells, alveolar macrophages and eosinophils. CCL11 is involved in allergic reactions by inducing chemotaxis of white blood cells.

ELISA This product may be used as a detection reagent in a sandwich ELISA together with [AHP2821](#) as the capture reagent. [PPP034](#) may be used as a standard.

Storage Store at +4°C. DO NOT FREEZE.
This product should be stored undiluted. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 12 months from date of despatch
