

## Datasheet: AHP2831 BATCH NUMBER 153930

| Description:         | CHICKEN ANTI RABBIT INTERLEUKIN-1 BETA |
|----------------------|--|
| Specificity:         | IL-1 BETA                              |
| Format:              | Purified                               |
| <b>Product Type:</b> | Polyclonal Antibody                    |
| Isotype:             | Polyclonal IgG                         |
| Quantity:            | 0.1 mg                                 |
|                      |  |

## **Product Details**

## **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

|                  | Yes | No | Not Determined | Suggested Dilution    |
|------------------|-----|----|----------------|-----------------------|
| ELISA            | •   |    |                | 1.0 ug/ml - 5.0 ug/ml |
| Western Blotting | •   |    |                | 0.1 ug/ml - 2.0 ug/ml |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

| Target Species | Rabbit                |
|----------------|-----------------------|
| Product Form   | Purified IgG - liquid |

Antiserum Preparation Antiserum to rabbit interleukin-1 beta was raised by repeated immunization of chicken with

highly purified antigen. Purified IgG was prepared from whole serum by affinity

chromatography.

| Buffer Solution                | Phosphate buffered saline              |
|--------------------------------|--|
| Preservative<br>Stabilisers    | 0.09% Sodium Azide (NaN <sub>3</sub> ) |
| Approx. Protein Concentrations | IgG concentration 1.0 mg/ml            |
| Immunogen                      | Recombinant rabbit IL-1 Beta           |
|                                |  |

| External Database<br>Links       | UniProt: P14628 Related reagents   |  |  |
|----------------------------------|--|--|--|
|                                  | Entrez Gene:  100008990 IL1B Related reagents  |  |  |
| Specificity                      | Chicken anti Rabbit Interleukin-1 Beta recognizes rabbit interleukin-1 (IL-1 beta).  |  |  |
|                                  | Rabbit IL-1 beta is a proinflammatory cytokine involved in regulation of the immune system including reactions to microbial infections. It induces T cell and B cell activation, promotes Th17 differentiation of T cells, fibroblast proliferation and collagen production. |  |  |
| ELISA                            | This product may be used as a capture antibody in a sandwich ELISA together with <a href="https://example.com/AHP2831B"><u>AHP2831B</u></a> as the detection reagent. <a href="https://example.com/PRABP016"><u>PRABP016</u></a> may be used as a standard.                  |  |  |
| Storage                          | Store at +4°C. DO NOT FREEZE.  This product should be stored undiluted. Should this product contain a precipitate we recommend microcentrifugation before use.   |  |  |
| Guarantee                        | 12 months from date of despatch  |  |  |
