

Datasheet: AHP2832

BATCH NUMBER 159505

Description:	CHICKEN ANTI RABBIT LEUKEMIA INHIBITORY FACTOR
Specificity:	LEUKEMIA INHIBITORY FACTOR
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			1.0 ug/ml - 5.0 ug/ml
Western Blotting	▪			0.1 ug/ml - 2.0 ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species

Rabbit

Species Cross Reactivity

Reacts with: Bovine, Dog, Goat, Monkey, Dolphin, Cat, Guinea Pig, Human, Mouse, Rat, Pig

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Antiserum Preparation

Antiserum to rabbit leukemia inhibitory factor was raised by repeated immunization of chicken with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	Recombinant rabbit Leukemia Inhibitory Factor
External Database Links	UniProt: U3KLT1 Related reagents
Specificity	Chicken anti Rabbit Leukemia Inhibitory Factor recognizes rabbit leukemia inhibitory factor (LIF). Rabbit LIF is a chemokine belonging to the IL-6 cytokine family. LIF inhibits differentiation in normal stem cells, but in leukemic myeloid cells, it induces differentiation thereby preventing further growth.
ELISA	This product may be used as a capture antibody in a sandwich ELISA together with AHP2832B as the detection reagent. PRABP017 may be used as a standard.
Storage	Store at +4°C. DO NOT FREEZE. This product should be stored undiluted. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/AHP283210040
Regulatory	For research purposes only
